

Assembled by drilling and securing onto the chamber wall

Part No. 14198

Specifications

Material: V4A-Stainless Steel
Weight: ca. 810g
Dimensions: Length ca. 410mm, width ca. 35mm

Use

This is the basic mounting rail for the ToxProtect 1402-MF.

The MultiFix bracket is fixed in the manhole chamber with 2 screws above the berm. The ToxProtect 1402-MF is installed or removed from above with the Vario-Grip.

Advantages

- **Only one entry into the chamber required for assembly**
- **Installation and removal of the ToxProtect 1402-MF does not require entry in the chamber**
- **Securely attached onto the chamber wall**
- **Space-saving installation in the manhole chamber**
- **Constructed for long-term use**
